

## Indigenous Internship Program

We help Indigenous students find casual or part-time work in a position related to their course of study. So for example, instead of working in Hospitality or Retail, if you're an Accounting student, we'll find you a job in an Accounting firm (or department). This might be in one of the Big 4 Accounting firms, or a smaller business.

- \* Casual / Part-time during term, more hours during holidays
- \* While classmates are working in a bar, you'll be getting industry experience
- \* You'll be the best person for a Graduate role as you have experience
- \* Probable Full-time job on Graduation...they spent time and money developing and mentoring you, it only makes sense that they look to you for their graduate intake

### Interested?

Send a brief e-mail letting us know what course you're studying, how far through it you are, and ideally a copy of your resume.

Once you do, we will be in contact and can give you more details.

## Benefits

- Paid work in a job related to your future career
- Build relative skills to compliment your studies
- Gain insight into corporate culture and networking
- Find a mentor to guide you on your journey
- A solid reason to study hard and complete your course
- Become a role model to others
- In the future, become a leader and mentor to other Indigenous students and workers.
